

Partners in Pharmacy Care

A great time on our own little island!

The setting was the Sagamore Resort in Bolton Landing, NY. The weather was fantastic and the attendance was record setting.

The 45th Annual Assembly began May 5, 2006 and concluded May 7, 2006. We had over 80 exhibitors and 400 attendees. There was a Director of Pharmacy meeting as well as over 20 Continuing Educational Credits.

The "Beach Party" theme dinner was fabulous with a sand sculpture, fish bowls on the tables and even beach balls, which we are still trying to figure out who had more fun with the beach balls, the kids or the adults.

This year NYSCHP decided to have a children's exhibit session that ran concurrently with the industry session. We also had a child movie and pizza night for attendees who brought their children and wanted to be able to attend the Installation Banquet undisturbed. This was so well received we are going to continue holding children's activities in the future.

The 2007 Annual Assembly will be back at the Sagamore Resort, May 4-6. Make plans to join us, whether it is your first time attending or you are a returning participant you are guaranteed the opportunity to network, relax and enjoy the beauty of the island.

Upcoming 2006-07 Events:

- ◇ Summer Educational Program, August 3, Verona, NY.
- ◇ Midyear Clinical Meetings-September 12, Seneca Niagara Hotel and October 24, Sheraton Long Island Hotel, Smithtown, NY.
- ◇ Jan Keltz Memorial Winter Educational Program - Jan. 4-7, 2007, Killington, VT.

Presidential Address, Leigh Briscoe-Dwyer

Dear Corporate Members:

On behalf of the Board of Directors, I would like to thank you for your continued support of our organization. We are well aware of the fact that we could not be as successful as we are without your help and participation. I hope you continue to take advantage of the several opportunities that exist over the course of the year to spend time with our members – your key customers. The Midyear Clinical Meetings and Annual Assembly consistently provide a great return on your investment as Corporate Members with better attendance every year. Our recent summer program at the Turning Stone Resort had the highest attendance since the program began. Our Winter CE program has been renamed in memory of past

Industry Affairs Director Dr. Jan Keltz and I hope that attendance at the 2007 program will be better than ever.

The New York State Council of Health-system Pharmacists is more than CE programs. We are advocates for our profession and for the safe, effective use of medication. Our legislative efforts to expand the scope of practice for pharmacist continue, as do our public relation campaigns to increase the awareness of the public to the role of the health-system pharmacist. We are proud of the impact that pharmacists have every day on the patients we care for. We will continue to be a voice for the availability of medication and pharmaceutical care – care that can only be provided by a phar-

macist - for every patient in New York State.

Thank you again for your support. I look forward to seeing you during the coming months.

Regards,

Leigh

2006 Corporate Sponsor Achievement Award

Richard DellaGuardia was awarded the Corporate Sponsor Achievement Award at the 45th Annual Assembly. This is awarded to an individual or a company in recognition in accomplishments for, involvement in and betterment of NYSCHP. Rick was employed by Upjohn for more than 30 years. He was the long-standing Parliamentarian in the House of Delegates. He was one of the charter members of the Joint Committee with Industry; and he was also associated with the Industrial Relations Committee. Rick is a long time backer of Council activities. He acted as a mentor to me and many new fledgling members throughout his tenure with the Council. He is affable, approachable and a source of a wealth of information to those who ask. It was with great pleasure that the Joint Committee with Industry recommended Rick for the Corporate Achievement Award. It was long overdue. Michael Better, Chair, Joint Committee with Industry
