

Position Statements to be Reviewed for Sunsetting, Amendment or Re-adoption

(1-12) NYSCHP supports the requirement to include the indication, whether it be an FDA approved or off label use, on all inpatient medication orders and outpatient prescriptions.

(2-12) NYSCHP supports prioritizing the adoption of e-prescribing of controlled substances by the NYS Department of Health, in an effort to curb prescription theft and prescription medication abuse.

(3-12) NYSCHP supports increasing the number of PGY-1 and PGY-2 residency positions within NYS by ways of supporting educational efforts offered through ASHP and legislative activities at the State and Federal level to support funding.

(4-12) NYSCHP encourages pharmacist led counseling upon initiation of a new medication, or upon discharge of a patient in a hospital or ambulatory clinic setting.

(5-12) NYSCHP encourage the NYS BOP to replace the “one year of satisfactory experience” requirement to that of “successful completion of an ASHP accredited PGY1 residency program” for residents reciprocating their Pharmacist license to NYS for a PGY2 residency.

(6-12) NYSCHP advocates that all hospitals should encourage provisions be made for their patients upon discharge to receive a supply of all newly prescribed medications and the education that is required to ensure the optimization and safe use of their discharge medications.

(7-12) NYSCHP advocates that pharmacist should maintain patient profiles that contain and are continuously updated to include patient specific information regarding pharmacogenomics if available and considered standard of care.

(8-12) Position statement on Intern Hours. NYSCHP supports and increase in the total hours required for licensure to a total of 1500 hours.

(9-12) Position statement on Preceptor Training. NYSCHP supports 3 hours focused on teaching included in the 45 hours over the 3 year license renewal period to be completed by all pharmacists. These hours may be live or non-live. These hours would be included in the 45 hours required per renewal period. The recommended topics to be focused on enhancing precepting, role modeling, teaching or mentoring as well as sessions focused on enhancing preceptor development. NYSCHP supports this proposed change for all pharmacists as a pharmacy preceptor continuing education requirement. This additional requirement will improve the pharmacy intern education process.

(10-12) NYSCHP supports obtaining access to the NYS Controlled Substance Information Prescription Drug Monitoring Program (NYCSIPSPMP) program for all active licenses registered pharmacists in the State of NY for the purposes of monitoring controlled substance use and improving patient outcomes and health.
